GRAFOMOTORIKA

Dokresli drakovi vajíčka. Rukou kruž plynule. Uvolňujeme ruku v obou směrech.

The worksheet contains two identical rows for a tracing exercise. Each row begins with a drawing of a dragon on the left and a large oval shape on the right. The oval has a small black dot at its top and bottom points, and a curved arrow pointing from the top dot to the bottom dot, indicating a tracing path. To the right of the oval are three horizontal lines, each with a black dot at its left end, serving as starting points for independent tracing. The entire activity is set against a background of three horizontal lines.
